## COURSE HIGHLIGHTS

- Provides internists and general practitioners with an up-to-date focus on rheumatologic disorders and a complete general review for rheumatologists.
- Participants should be able to recognize and diagnose common rheumatologic disorders and discern which patients need referral to a specialist.

## TARGET AUDIENCE

This course is designed for internists and general practitioners and is applicable to clinical rheumatologists and rheumatology fellows; as well as allied health staff working in the afore mentioned areas.

## LEARNING OBJECTIVES

Upon conclusion of this program, participants should be able to:

- Review basic clinical and therapeutic aspects of rheumatologic conditions
- Improve interpretation skills for rheumatology laboratory testing
- Identify patients that can be managed in primary care practices, and patients that need to be referred to rheumatology
- Review up-to-date information about etiology, pathogenesis, and treatment of rheumatologic disorders
