

World Cancer Congress

2019

*Cancer and Natural
Health Alternatives
for Healing and being
Healthy*

MARRIOTT HOTEL AL JADDAF

DUBAI

Tentative Program

Title: A New Study on the Mechanism of Cancer

Vladimir Ermoshkin, Russian New University (RosNOU), Russia

Title: Envisioning Primed NK (natural killer) Cells Activity -Mediated Hsps (heat shock proteins)-controlled during anti PD -1 Checkpoint Blockades Activity for Immunotherapeutic Approach to Tumor Control via the Immuno-Tumor Habitat.

Jerry Nii Moffatt, Alliant International University, USA

Title: New Pharmacological Product for Treating Cancer and Increasing the Efficiency of Cell Functions by Oxygen Molecules Dissolved in Water and using Sodium Bicarbonate

Makhlouf Mahmoud Ibrahim Makhlouf, Science Research Center, Egypt

Title: Detection of BRCA1 founder Mutation 185delAG and 5382insC in Familial Ovarian Cancer Patients using Pyrosequencing Technique

Eman Elzyat, Alexandria Faculty Of Medicine, Egypt

Title: Long term survival in diffuse infiltrative brainstem gliomas in children and adolescents treated with radiotherapy and Nimotuzumab

Jose Alert Silva, National Institute of Oncology and Radiobiology, Havana, CUBA.

Title: Expression of Survivin in Urothelial carcinoma: 5 year experience

Kausalya Kumari Sahu, Kasturba Medical College, India

Title: Differential expression of Phospholipase A2 isoforms in CSC-induced anomalies in type II (A549, Adenocarcinoma) and type I (WI26, transformed) lung epithelial cells

Saniya Mahendiratta, PGIMER, India

Title: Continuation of The New Theory of CVD and Cancer

Vladimir Ermoshkin, Russian New University (RosNOU), Russia

Title: Pulmonary Mucoepidermoid Carcinoma: Diagnosis and Treatment

Shafaq Maqsood, Shaukat Khanum Memorial Cancer Hospital and Reseach Centre, Pakistan

Title: Ultrasound assisted Green Synthesis of Novel Topoisomerase II Inhibiting: Chromone Integrated Phosphonate Derivatives as Anticancer Agents

Shailee Upadhyay, Swami Ramanand Teerth Marathwada University, India.

Title: Protective role of PLA2 inhibitor during Cigarette Smoke Condensate induced anomalies in lung epithelium

Subodh Kumar, PGIMER, India

Title: Knowledge and Practices on breast cancer detection and associated challenges among women aged 35 years and above in Tanzania: A case of Morogoro Rural District

Faraja David Ng'ida, Kilimanjaro Christian Medical University College, Tanzania

Title: Cure joint frailty models for multiple disease recurrences: Application to Breast Cancer data

Freshteh Osmani, Tarbiat Modares University, Tehran, Iran

Title: Knowledge towards cervical cancer prevention and screening practices among women who attended reproductive and child health clinic at Magu district hospital, Lake zone Tanzania: a cross-sectional study

Mabula M. Mabelele, Christian Medical University College, Tanzania

Title: Paclitaxel-Carboplatin-Bevacizumab Combination in Inoperable and / or Metastatic Local Non-Epidermal Non-Small Cell Lung Disease

Ahlam Megaiz, University Hospital of Oran-Algeria, Algeria
