

APASL Oncology 2022 Takamatsu Program at a Glance

	September 1 (Thursday)				September 2 (Friday)				September 3 (Saturday)				
	Room 1	Room 2	Room 3	Room 4	Room 1	Room 2	Room 3	Room 4	Room 1	Room 2	Room 3	Room 4	
8:00-9:00	Registration				Morning Seminar	Morning Seminar			Morning Seminar	Morning Seminar		Free Papers Exhibition	
9:00-9:10					Opening Ceremony								
9:10-10:40	Session 1 Carcinogenesis post HCV eradication	Session 2 Epidemiology of HCC in Asia	Session 3 MicroRNA and liver cancer (including HCC, CCC and metastatic liver cancer)		Session 13 Treatment of advanced hepatocellular carcinoma	Session 14 Treatment strategies for liver cirrhosis	Session 15 Biomarker research on liver cancer for clinical applications (including HCC, CCC and metastatic liver cancer)		Session 25 Lifestyle-related diseases and HCC	Session 26 Treatment of advanced hepatocellular carcinoma	Session 27 Molecular mechanisms of liver cancer (including HCC, CCC and metastatic liver cancer)		
10:50-12:20	Session 4 Carcinogenesis post HCV eradication	Session 5 HBV management - protection for HCC occurrence	Session 6 MicroRNA and liver cancer (including HCC, CCC and metastatic liver cancer)		Session 16 Treatment of advanced hepatocellular carcinoma	Session 17 Treatment of intermediate-stage hepatocellular carcinoma	Session 18 Biomarker research on liver cancer for clinical applications. (including HCC, CCC and metastatic liver cancer)		Session 28 Lifestyle-related diseases and HCC	Session 29 Treatment strategies for liver cirrhosis	Special Lecture		
12:30-13:30	Luncheon Seminar	Luncheon Seminar		Free Papers Exhibition	Luncheon Seminar	Luncheon Seminar		Free Papers Exhibition	Closing Ceremony				
13:50-14:30	President Lecture				State-of-the Art Lecture				*Program is subject to change.				
14:40-16:10	Session 7 Treatment of early-stage hepatocellular carcinoma	Session 8 Portal hypertension-associated endoscopic diagnosis and therapy	Session 9 Molecular mechanisms of liver cancer (including HCC, CCC and metastatic liver cancer)		Session 19 Treatment of intermediate-stage hepatocellular carcinoma	Session 20 Recent Advance in endoscopic biliary drainage for unresectable malignant hilar biliary obstruction	Session 21 Molecular mechanisms of Liver fibrosis						
16:20-17:50	Session 10 Treatment of intermediate-stage hepatocellular carcinoma	Session 11 Diagnosis of HCC	Session 12 Molecular mechanisms of liver cancer (including HCC, CCC and metastatic liver cancer)	Session 22 Treatment of early-stage hepatocellular carcinoma	Session 23 Recent Advance in Treatment Strategy for Intrahepatic Cholangiocarcinoma	Session 24 Molecular mechanisms of Liver fibrosis							
18:00-20:00					Poster Workshop
